

## **Groundhog Day Workshop Descriptions:**

**Shadow Portraits (45 minutes):** Learn the traditional art of "Scherenschnitte" and create negative paper cut pictures using your own shadow.

**Collograph Printing (45 minutes):** The collograph print is a collage printmaking technique, where an image to be printed is composed from a variety of textured materials. Create your own collograph design based on shadowy scenery and print your image.

**Kinetic (45 minutes):** This is a dance/movement workshop where participants will be instructed in and practice yoga and animal-like poses and movement in an interactive environment.

**Storytelling (45 minutes):** Unexpectedly fun – in this workshop, students will hear the tale of a girl who receives a gift, which to her is "lame," but with a little imagination she finds it is actually unexpectedly fun! When the story is over, the students will use the magic of their hands and creativity to find the magic in an everyday project.

**\$5 Materials Fee per workshop. Buy two sessions per child and receive the third FREE.** Call (609) 586-0616 to register, Tues. through Sun., 10am – 6pm.
