01. Not reporting collections (Part III, line 1a)

Collections consist of sculptures and other contemporary art pieces. Collections acquired either through purchase or donation are not capitalized. Purchase of collection items are recorded as decreases in unrestricted net assets if purchased with unrestricted assets and as decreases in temporarily restricted or permanently restricted net assets if purchased with donor-restricted assets. Contributions of collection items are not recognized in the statement of activities. Proceeds from deaccessions or insurance recoveries are reflected on the statement of activities based on the absence or existence and nature of donor-imposed restrictions.

Part XIII Supplemental Information (continued)**01. Not reporting collections (Part III, line 1a)**

Donations and acquisitions of collections are not required to be recognized since they are added to collections that are held for public exhibition and education in furtherance of public service rather than financial gain; are protected, kept encumbered, cared for, and preserved; and are subject to a policy that requires the proceeds from sales of collection items to be used to acquire other items for collections.

02. Collections descriptions (Part III, line 4)

The artwork that is exhibited is owned by the organization or is on loan from artists, galleries and a foundation that owns and produces works. GFS produces a rich and diverse roster of art and cultural programs built upon the foundation of the sculpture collection and gallery exhibitions. The more than 300 works are eclectic and wide-ranging; consistent with the vision of enabling the broadest possible public to engage in a self-directed journey that leads from the familiar and comfortable to the new and challenging. Exhibitions strive for a high degree of diversity in media, content, materials, style, culture, ethnicity and place of origin.
