THE WIND CHALLENGE:

KINETIC SCULPTURE

In this challenge, design and build a sculpture incorporating elements that move. Explore artwork in the park which expresses form, balance, and movement, then make your own kinetic masterpiece! This workshop includes working with wire, beads, foam, metallic papers, and more.
60 minutes. \$20 per participant.

TERRARIUMS:

SCULPTURE GARDENS UNDER GLASS

Create your own sculptural landscape! Using seeds and other natural elements, young artists will construct an artistic tabletop garden environment enclosed in glass container. Working with wire and found objects, add decorative elements and sculptures to inhabit your gardens under glass.
60 minutes. \$20 per participant.

COLOR, TEXTURE, & CASTING:

MONOPRINTING

Sculpting, painting, molding, casting, and monoprinting – in this workshop, young artists will create low-relief sculptures that synthesize all of these artistic techniques together. Working with a variety of tools, sketch a design in clay to create a mold that will be painted and cast with paper pulp. As the paper pulp dries, the watercolor will transfer directly onto the casting.

60 minutes. \$20 per participant.

TEEN SCULPTURE HUNT:

An engaging introduction to Grounds For Sculpture, your group will be split into teams, compete to find selected sculptures outdoors and earn points by answering related questions. Race to be the quickest team to complete this challenge and receive a fabulous prize!

60 minutes. \$20 per participant.
