School Trip Scholarship program

Grounds For Sculpture offers limited School Trip Scholarship funding, which covers *standard admission rates* for New Jersey Pre-K–12 schools who demonstrate need and articulate their motivation for a visit. Please note: Guided tours and workshops are *not* included as part of this program. All scholarships are subject to availability.

In addition to receiving scholarship funding, recipient groups will be greeted by GFS Guides who will join their group and assist teachers and chaperones in navigating the garden.

For consideration, please complete the application process outlined below:

- **Complete the School Group Visit Request Form.** Please make sure to indicate that you are applying for our School Trip Scholarship program in the completion of this form.
- **Submit a letter that outlines your interest in a school trip to Grounds For Sculpture** and how financial assistance will benefit your group. As part of the application process, your school principal must sign your letter prior to submission to indicate support for your application.
- **Submit, either in the letter or in addition to it, information on how a visit to Grounds For Sculpture would tie to school curricula** and act as an extension of your classroom for your students. Please note that we are happy to provide personalized resources, so you can best meet the goals of your visit.

To help offset transportation fees, a reimbursement of up to \$300 towards bus expenses may also be available for groups visiting on a scholarship. If you are interested in applying for bus reimbursement, please indicate the need and the estimated cost of transportation in your application.

Please submit application letters to:
education@groundsforsculpture.org

or
